PCDF

HELPING EMPOWER REMOTE RURAL COMMUNITIES ACROSS FIJI

Who Are We

Partners In Community Development Fiji (PCDF). Founded in 1978, PCDF is one of Fiji's longest established NGO's that carries out community development projects. We have been working in communities in Fiji for over 30 years. We assist communities in all aspects of environmental, governmental and social development with the ultimate aim of making them self-reliable.

What We Do

We specialize in working with isolated communities and take a "bottom up" approach where we empower them become more resilient, sustainable and prosperous.

Our Mission:

Working in partnership with communities to empower and assist with informed decision making for their own future development.

Our Vision

Communities achieving equitable, holistic and sustainable livelihoods.

Our programmes are divided into four overarching themes: Education and Capacity Enhancement (ECE), Natural Resource Management (NRM), Health Improvement (HI) and Institutional Development (ID).

Objectives:

1. To increase self reliance/ownership in rural communities
2. To promote good governance at all levels
3. To promote the protection of the environment
4. To sustain livelihoods

5. To manage interventions
6. To promote gender balance
7. To promote healthy living
8. To strengthen Infrastructure Development

How We Do It

We are informed about a need for a project either directly or indirectly from the communities, after which an official request must be submitted from the communities

themselves. If no other organization is currently working with the community, we will assess the project logistics and write a proposal.

We use community appropriate tools of engagement and work closely with the government and other organizations to achieve our goals.
